

1. Take 2 mitten pieces. Place right sides together, and sew along the outside curved edge.
2. Take 1 ribbing piece and fold in half, right sides together, with notched edges together. Sew notched edge.
3. Roll one cuff edge of ribbing up to meet the other cuff edge, sliding the wrong sides together.
4. Slip the ribbing inside the mitten (right sides together), matching the ribbing seam to one of the mitten seams.
5. Sew cuff edge, stretching ribbing to fit.
6. Turn right side out.
7. Repeat with other mitten.
